

## **ISA AWARD Conferred to SBDAV**

Fulfillment, adoration, avenues surpassed, heights achieved, SBDAV Vasant Vihar, witnessed a glorious day , thereby, earning a prestigious International School Award granted by British Council through the dint of hard work and dauntless efforts of the students and the entire staff.

The ISA Award under the aegis of British Council aimed at striving for International Level of Education, and, we, at SBDAV, undertook the 10 globally relevant Projects and submitted the dossier to British Council in the month of August.

In pursuit of achieving our target, we were able to reach out to the world curriculum and opened new arenas of knowledge and learning to our students. It was the combined effort of the students and teachers, and undoubtedly, the parents without whose support this would have not come to real.

The journey last year started with the planning of throng of activities and projects which appeared to be a colossal mark as such. But as and when time passed by, we successfully completed one project after the other. It was, indeed, a sumptuous experience as it helped the students to work in coordination and surf together, go beyond their limits and achieve success.

We extend our gratitude to the students for their associated partnership in achieving the lofty goal of building the school as a dignified and reputed institution of learning.
